Dear Louis,

Re: Futbol Maestro Trials

What a fantastic product. Congratulations. I have spent the last couple of months using the Futbol Maestro ball and boot glove in numerous youth soccer training sessions. The response has been nothing short of fantastic. Both coaches and players alike recognize the product to be a wonderful training aid.

When used, it does effectively improve ball control and accuracy. The special colour coding makes it so easy to instruct with and also equally simple for the players to comprehend and apply various techniques. Really when you think of it, it is a simple idea but so effective. It should have been around when I was in training.

Once again well done! I wish you every success. The product is destined to succeed.

All good wishes
